

Low Profile Cable Ties 8" Black - Pack of 10

\$1.49

Product Images

Short Description

Low Profile Cable Ties are strong, flexible, and maintain a low profile around bundled cables which makes them perfect for installations in tight spaces where clearance of a standard cable tie head can be an issue. These low profile cable ties feature a slot which allows the remaining tail to slip back into the head of the tie leaving no exposed sharp edges. The tamper proof pawl is hidden under the cable ties head making it inaccessible when bundled. Ideal for wire harnesses and other bundled cable runs, the low profile head allows you to pull your bundles after you have tightened them down. 10 pcs. per bag.

Made in USA.

Description

Low Profile Cable Ties are strong, flexible, and maintain a low profile around bundled cables which makes them perfect for installations in tight spaces where clearance of a standard cable tie head can be an issue. These low profile cable ties feature a slot which allows the remaining tail to slip back into the head of the tie leaving no exposed sharp edges. The tamper proof pawl is hidden under the cable ties head making it inaccessible when bundled.
