Short Description

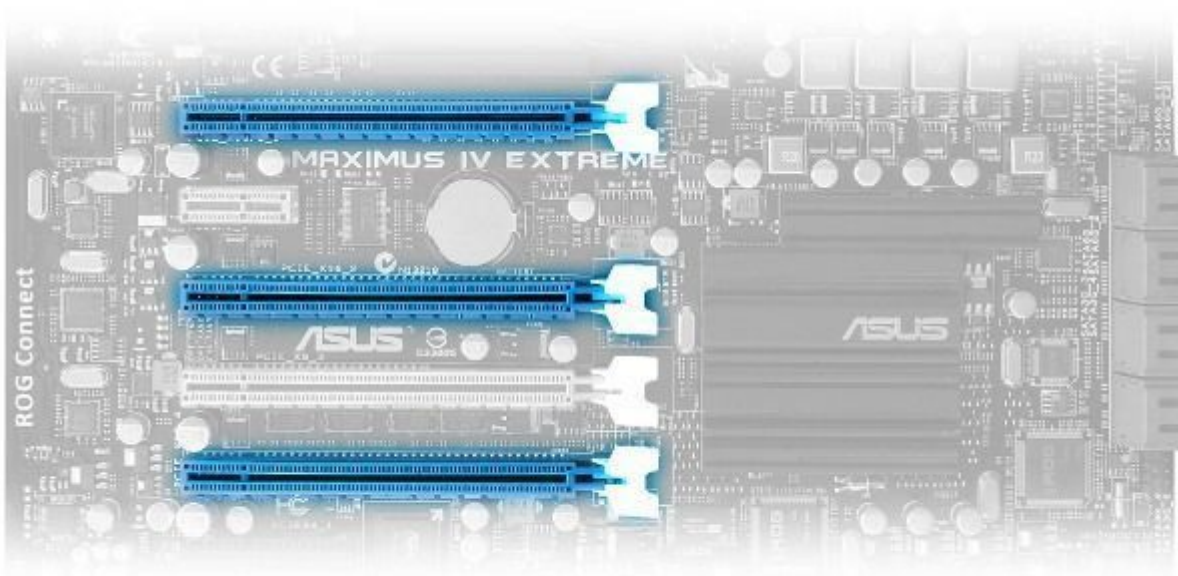

EK-FC Bridge TRIPLE Serial CSQ is a high quality interconnect for connecting two (2) EK Full-Cover waterblocks in a single, sturdy unit. Connecting multiple graphics cards FC water blocks with awkward fittings and tubing is a thing of a past!

Description

EK-FC Bridge TRIPLE Serial CSQ is a high quality interconnect for connecting two (2) EK Full-Cover waterblocks in a single, sturdy unit. Connecting multiple graphics cards FC water blocks with awkward fittings and tubing is a thing of a past!

Bridge is made of high quality POM Acetal. There is no need to purchase additional links since the EK-FC Link comes with every Full Cover CSQ water block. Serial and parallel water flow are graphically explained in installation manual.

For use with motherboards with PCIe x16 slots 40.6mm (1.6") apart!

Correct slot configuration for use of EK-FC Bridge TRIPLE

NOTE: The CSQ bridges are compatible with CSQ design full cover water blocks only!

Specifications
