with the front of your PC case. With its' easy HDD change mechanism and Hot Plug, Easy Mobile Rack focuses on convenient use. Easy Mobile Rack is made for 3.5" S-ATA HDDs.

Description

Easy Mobile Rack is a easy to use, hot pluggable hard disc bay in a straightforward design. It blends in perfectly with the front of your PC case. With its' easy HDD change mechanism and Hot Plug, Easy Mobile Rack focuses on convenient use. Easy Mobile Rack is made for 3.5" S-ATA HDDs.

Easy handling

With Easy Mobile Rack strong emphasis was laid on creating a easy to handle device. Simply put the HDD into the bay. Closing the front door will bring the harddrive in a perfect position. Conversely, opening the door will detach and eject the disk, just far enough to pull out easily.

Hot Plug support

Keeping an eye on easy handling, another feature becomes of utmost significance. Inserting, retracting or replacing a HDD should be realized without the restart of the whole system. That's what Hot Plug feature is for. With Easy Mobile Rack S-ATA HDDs can be easily retracted at any time without data loss, therefore providing the same characteristics like USB devices.

Perfect blending

With its' straightforward design Easy Mobile Rack blends in perfectly with your PC case. The flat front flushes with the facade of the PC case. Its' black colour makes it a perfect fit for dark PC cases.
