

ModMyToys HELIOS - Premium LED Spotlight - Purple

\$7.95

Product Images

Short Description

If your beautiful new build deserves some highlighted features of the expensive and cool looking hardware in your chassis, ModMyToys has you covered with the HELIOS LED Premium Spotlight. Don't confuse these with the old and ugly looking single beam LED's of yonder. The new HELIOS LED Spotlights feature a slick 360 degree ball mount swivel so that you can mount the base in any area you choose and then rotate the beam to exactly the spot you want to put extra colored lighting on.

Description

If your beautiful new build deserves some highlighted features of the expensive and cool looking hardware in your chassis, ModMyToys has you covered with the HELIOS LED Premium Spotlight. Don't confuse these with the old and ugly looking single beam LED's of yonder. The new HELIOS LED Spotlights feature a slick 360 degree ball mount swivel so that you can mount the base in any area you choose and then rotate the beam to exactly the spot you want to put extra colored lighting on. The old Laserbeams were a fixed base and very hard to mount and then have the beam point where you want it to go. This problem is now solved! With a beautiful black body and base that blend into the background we include a hook and loop mounting pad and a full set of screws for a more permanent mount. We even had the cables sleeved in the tightest weave sleeving in the business and we include TWO (2) colored LEDs per package! Every package comes with a matching sleeved LED cable in the color of the LED as well as a black sleeved LED cable for those that prefer and use only black cables in their builds. So we got you covered! So enjoy the new ModMyToys HELIOS LED and let your imagination run away with the ways you can compliment and feature any part of your rig using multiple colors with the New HELIOS LED Premium Spotlight's!

Free changeover to 3-pin connector, choose option above.
