Short Description

A fan which appeals to both silent enthusiasts and friends of performance systems is something completely new in the PC cooling segment. This split as well as other unique features make this fan the perfect choice for your system and all competition shake in fear: "Fear IT!"

Description

Silent systems at an affordable price, this is only possible with Phobya!

A fan which appeals to both silent enthusiasts and friends of performance systems is something completely new in the PC cooling

segment. This split as well as other unique features make this fan the perfect choice for your system and all competition shake in fear: "Fear IT!"

The manufacturer consortium Phobya has achieved a higher rate of air flow without added noise emissions by ideally orienting the fan blades. The curved rotor blades with an angled orientation from bearing to frame are the future of fan design. An innovative bearing and motor design paired with a robust frame and spinner make this a fan which is virtually inaudible. 17 dB(A) are a true pleasure, especially when keeping the air flow of 95 m³/h in mind.

Of course this fan can be made even more quiet! Being designed for operation with even lower voltage and having a starting voltage range of 7-12V, this fan can run truly whisper-quiet. And all that whilst ensuring strong cooling performance for your system!

Another highlight is the "slim version"!

Slim meaning that the fan has a reduced thickness compared other series, only 25mm! This allows more mounting possibilities in enclosures, especially in combination with radiators or smaller enclosures.

Phobya has created the ultimate fan: Quiet, powerful, with great compatibility and at an affordable price!

Specifications

Dimensions: 180x180x25mm

Color: Transparent frame and blue fan blades

Weight: 215g

Starting voltage: 10V

Operating voltage: 7-12V

Current draw: 0.13A

Nominal speed: 700rpm (+/- 10%)

Air flow: 95 m³/h / 56 CFM

Noise emissions: 17 dB(A)

Connector type: 3-Pin Molex

Special feature: Extremely slim, 25mm, blue LED

Extent of delivery:

1x Phobya G-Silent 18 700rpm slim blue LED (180x180x25mm)

1x 4 Fan screws

Additional Information

Brand	Phobya
SKU	PH-79121
Weight	1.2500
Color	Blue
Fan Dimensions	180mm
Fan Width	25mm
Fan Connection	3 Pin Molex
Fan Voltage	12 VDC
Fan RPM	700
Fan CFM	56
Fan Noise (dB)	17
LED Color	Blue
Special Price	\$13.56
