

XSPC D5 Vario (Molex) Pump - Without Cover

\$79.95

Product Images

Short Description

The D5 Vario is the ultimate pump for PC water-cooling. It features exceptional performance and unrivalled reliability. The Vario's speed dial allows you to adjust the pump speed to best suit your system, and the tachometer output lets you accurately monitor the pumps speed. This pump ships without a front cover. You will require a D5 top or D5 reservoir in order to use this pump.
