Short Description

EK-FC Bridge DUAL Serial 3-Slot is a high quality interconnect for connecting two (2) EK Full-Cover waterblocks in a single, sturdy unit. Connecting multiple graphics cards FC water blocks with awkward fittings and tubing is a thing of a past!

Description

EK-FC Bridge DUAL Serial 3-Slot is a high quality interconnect for connecting two (2) EK Full-Cover waterblocks in a single, sturdy unit. Connecting multiple graphics cards FC water blocks with awkward fittings and tubing is a thing of a past!

Bridge is made of high quality POM Acetal. There is no need to purchase additional links since the EK-FC Link comes with every Full Cover CSQ water block. Serial and parallel water flow are graphically explained in installation manual.

For use with any FC link except EK-FC Link BLANK Parallel!

For use with motherboards with PCIe x16 slots 60.9mm (2.4") apart!

NOTE: The CSQ bridges are compatible with CSQ design full cover water blocks only!
