Short Description

Boasting an ambitious and bold vortex design, the Cryo V60's unique bladeless fan operation produces an uninterrupted stream of cool air powered by dual low-powered 75mm fans. Cryo V60 packs tremendous cooling performance for notebooks up to 16" into a lightweight, slim design that is ideal for travel and on-the-go use. Additional features include an integrated fan controller to adjust fan speeds and a USB charging hub to power two mobile devices.

Description

Boasting an ambitious and bold vortex design, the Cryo V60's unique bladeless fan operation produces an uninterrupted stream of cool air powered by dual low-powered 75mm fans. Cryo V60 packs tremendous cooling performance for notebooks up to 16" into a lightweight, slim design that is ideal for travel and on-the-go use. Additional features include an integrated fan controller to adjust fan speeds and a USB charging hub to power two mobile devices.
