Short Description

Phobya's latest masterpiece of cooling technology!

This is a fan that will satisfy both Silent-PC users and performance-oriented PC builders which is unique on the fan market. This innovative fan will bring fear to its competitors and keep your system cool with all of its great features!

Description

Phobya´s latest masterpiece of cooling technology!

This is a fan that will satisfy both Silent-PC users and performance-oriented PC builders which is unique on the fan market. This innovative fan will bring fear to its competitors and keep your system cool with all of its great features!

The manufacturer's consortium Phobya has achieved that an increased Airflow does not necessarily result in higher noise emissions by using an innovative fan blade design. The specially curved fan blades in combination with the unique design and high fan blade density lead the way to the future of cooling! The bearing is quipped with the newest Nano technology which greatly reduces friction and noise emissions. An increased speed allows this fan to achieve great Airflow!

At a maximum speed of 700rpm, this fan is virtually inaudible

The appearance nowadays also is an extremely important factor when considering a fan. The black fan blades, in combination with an elegant black frame, completely in an elegant glossy finish result in a truly spectacular appearance of this fan which is a great choice for any system!

For cleaning of the fan the full rotor can be removed by lightly pulling on the frame respectively. Therefore cleaning of the fan can easily be accomplished: Simply hold the fan under running water and rinse off dust and dirt. After a short drying period the fan can be reassembled by simply pushing the rotor back into the casing and the fan can be used again.

Specifications

- Dimensions: 120x120x25mm
- Color: Black frame, black fan blades
- Weight: 119g
- Nominal voltage: 12V
- Starting voltage: 5V
- Current draw: 0,03A
- Nominal speed: 700rpm (+/-10%)
- Airflow: max. 45,87m³/h / 26,99CFM
- Noise emission: 8.9 dB(A)
- MTBF (25°C): 50.000hrs
- Connector: 3-Pin

Extent of delivery:

- 1x Phobya G-Silent 12 700rpm Black Silent Edition (120x120x25mm)
- 4x Fan screws

Additional Information

Brand	Phobya
SKU	PH-78350
Weight	0.6000
Color	Black
Fan Dimensions	120mm
Fan Width	25mm
Fan Connection	3-Pin
Fan Voltage	12 VDC
Fan RPM	700
Fan CFM	27
Fan Noise (dB)	9
Special Price	\$7.61
