Description

Is your PC hungry for more power? If it is an energy fiend, you can count on the HALE82. The HALE82 is 80+ bronze certified and operates at high efficiency. This unit is stable yet powerful to meet all your gaming and enthusiast needs.

Features

80+ Bronze Certification - The HALE82 series from NZXT operates with high efficiency: at 20%, 50%, and 100% loads, efficiencies are 82%, 85%, and 82% respectively.

100% Japanese Capacitors - High quality components promote longer lifespan and better reliability.

120mm Two-Ball Bearing Fan - For smooth, silent rotation and optimal air intake.

Strong Single +12V Rail - A single +12V rail provides stability and ease of use with the ability to deliver clean currents under a heavy load.

Modular Design - Includes a selection of flat cables that allow the user to pick and choose which cables they want to use, maximizing cable management and airflow inside chassis.

Large Tower Support - Extended 8pin connector for bottom mounted cases or large cases.

Dual 8pin connector - For high end motherbaords dedicated to overclocking.

Keeping it Safe - The HALE80 series offers over voltage, current, power, temperature, under voltage, and short circuit protection.
