

Phobya 10/8mm (8x1mm) Compression Fitting G1/4 Type 2

\$2.50

Product Images

Short Description

High quality screw-on fitting with cylindrical threads (1/4"). The hose is fixated and sealed tightly by the union

nut, yet it can be easily removed with one hand. This system ensures maximum safety and ease of installation. With integrated 1/4" Perbunan(r) O-Ring seal.

Description

High quality screw-on fitting with cylindrical threads (1/4"). The hose is fixated and selaed tightly by the union nut, yet it can be easily removed with one hand. This system ensures maximum safety and ease of installation. With integrated 1/4" Perbunan(r) O-Ring seal.

Specifications

Material: brass
extent of delivery: Screw-on fitting with O-Ring seal

Please note:
These fittings are operationally analogue to the other screw-on fittings and are only different by the design of the connector and union nut. This type of fittings was widely distributed until 2006 and was then replaced by the new version. Customers still using the old design are hereby given the option to keep the same design throughout the system when upgrading.
As these "old" fittings are more expensive to aquire and produce, we recommend the use of the currently common fittings for new customers.

Also (among others) available as type 2 are:

- 62085 10/8mm screw-on fitting G1/4 90° revolvable
- 62084 10/8mm screw-on fittingG1/4
- 62086 10/8mm L hose connector
