Short Description

The EK-RES X3 - Multiport TOP WHITE is an alternative white top end cap for EK-RES X3 series reservoir which offers additional port configurations. This TOP allows installation of three tubes which needs to be purchased separately (appropriate length, depending on the version of the reservoir).

Description

The EK-RES X3 - Multiport TOP WHITE is an alternative white top end cap for EK-RES X3 series reservoir which offers additional port configurations.

This TOP allows installation of three tubes which needs to be purchased separately (appropriate length, depending on the version of the reservoir). These tubes, which are sealed with quality NBR rubber gasket, allow the ports on this TOP to be used as an outlet

ports as well.

EK-RES X3 - Multiport TOP WHITE is made of quality machined white POM Acetal material.

Please note:

- Allen key 6mm, required for tightening of G1/4 plugs, is not enclosed. It is however being enclosed within each delivery of the EK-RES X3 series reservoirs.

Specifications
