

Alphacool Reservoir Connector 50mm Messing

\$11.50

Product Images

Short Description

Alphacool reservoir connectors are designed to extend the popular Alphacool tube reservoirs. This is especially interesting for use in big towers, allowing full utilization of the enclosure's height.

Description

Alphacool reservoir connectors are designed to extend the popular Alphacool tube reservoirs. This is especially interesting for use in big towers, allowing full utilization of the enclosure's height.

The idea is simple:

Remove the top from a complete reservoir by the Alphacool reservoir connector. Now screw on a spare reservoir top, available at our shop, and add the previously removed top - You now have a new giant reservoir!

Black POM and black nickel plated brass connectors are available. Both standard sizes, 50mm and 60mm, were considered. O-ring gaskets at the ends ensure a tight seal of the connector.

Specifications

- Material:black nickel plated brass
- Color:Black
- Tube diameter compatibility:50mm
- Height without threads: 15mm
- Thread length on each side:10mm

Extent of delivery:

1x Alphacool Reservoir Connector 50mm Messing

Additional Information

Brand	Alphacool
SKU	AC-15158
Weight	0.2000
Color	Black
Reservoir Type	Tube Res
Reservoir Accessory Type	Coupler
Vendor SKU/EAN	4250197151580
