## Product Images

## Short Description

If you need to install more HDDs or SSDs into your system, look no further than the BitFenix 5.25" Drive Bay Adapter. This handy accessory converts one 5.25" drive bay into a 3.5" or 2.5" drive bay. Use the former for HDDs and card readers, and the latter for the latest generation of blazing fast SSDs. The BitFenix 5.25" Drive Bay Adapter can be installed as an internal or external drive bay for added convenience, and is also available in black or white. Best of all, this drive bay adapter is treated with BitFenix SoftTouch™, making it a perfect match for your BitFenix chassis!

## Description

---

If you need to install more HDDs or SSDs into your system, look no further than the BitFenix 5.25" Drive Bay Adapter. This handy accessory converts one 5.25" drive bay into a 3.5" or 2.5" drive bay. The BitFenix 5.25" Drive Bay Adapter can be installed as an internal or external drive bay for added convenience, and is also available in black or white. Best of all, this drive bay adapter is treated with BitFenix SofTouch™, making it a perfect match for your BitFenix chassis!

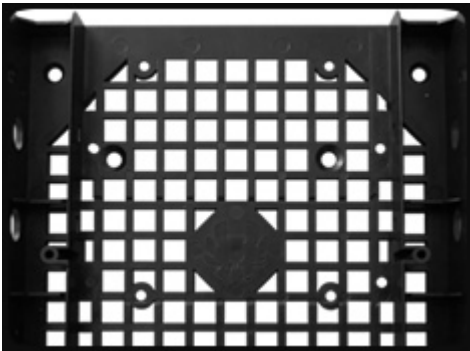

## Features

---

### Converts One 5.25" Drive Bay to One 3.5" Drive Bay

This handy accessory converts one of your spare 5.25" drive bays to one 3.5" drive bays, perfect for installing hard disks, card readers and more.

### Converts One 5.25" Drive Bay to One 2.5" Drive Bay

Want to install another SSD in your system but don't have a place to put it? No problem. Just install the BitFenix 5.25" Drive Bay Adapter and gain another 2.5" drive location!

Installs Internally or Externally

The BitFenix 5.25" Drive Bay Adapter has the flexibility to be installed either as an internal or external drive bay. Install it internally for hard drives and SSDs, or externally for card readers, function panels and more.

BitFenix SofTouch™ Surface Treatment

The front plate of the BitFenix 5.25" Drive Bay Adapter is coated in none other than signature BitFenix SofTouch™ Surface Treatment, making it stain and fingerprint-resistant while giving it a luxurious matte finish. Of course, it looks great with all BitFenix chassis!
