## Product Images

## Short Description

Upgrade your chassis to the world of USB 3.0 quickly and easily with the BitFenix USB 3.0 Front Panel. Equipped with four SuperSpeed USB 3.0 ports, this front panel allows you to connect next-generation USB 3.0 devices via the front of your case. This accessory is compatible with the latest USB 3.0 motherboards which have internal 20-pin USB 3.0 ports, and allows you to add up to four USB 3.0 ports to your chassis without unsightly wiring. Sporting a luxurious brushed aluminum bezel, the BitFenix USB 3.0 Front Panel handsomely fits into any external 3.5" drive bay and delivers transfer speeds of up to ten times that of USB 2.0!

Upgrade your chassis to the world of USB 3.0 quickly and easily with the BitFenix USB 3.0 Front Panel. Equipped with four SuperSpeed USB 3.0 ports, this front panel allows you to connect next-generation USB 3.0 devices via the front of your case. This accessory is compatible with the latest USB 3.0 motherboards which have internal 20-pin USB 3.0 ports, and allows you to add up to four USB 3.0 ports to your chassis without unsightly wiring. Sporting a luxurious brushed aluminum bezel, the BitFenix USB 3.0 Front Panel handsomely fits into any external 3.5" drive bay and delivers transfer speeds of up to ten times that of USB 2.0!

## Features

---

### Four and Two USB 3.0 Port Versions

More and more high-speed USB 3.0 devices are being released, so take advantage of them with the BitFenix USB 3.0 Front Panel. Once installed, this accessory allows you to connect more USB 3.0 devices to your system at once, or adds USB 3.0 functionality to systems lacking external USB 3.0 ports. The BitFenix USB 3.0 Front Panel is available in both four and two-port versions.

### Works with Latest Generation USB 3.0 Motherboards

The BitFenix USB 3.0 Front Panel is fully compatible with motherboards that have internal 20-pin USB 3.0 connectors. Simply install the BitFenix USB 3.0 Front Panel and connect it to your motherboard's internal USB 3.0 headers and you're done!

### Sleek Looks

The BitFenix USB 3.0 Front Panel features an electroplated brushed aluminum bezel that gives it a luxurious high-quality look which fits virtually any chassis.

### High Compatibility

Universally compatible with any chassis with a free external 3.5" drive bay, you can install the BitFenix USB 3.0 Front Panel to just about any case on the market.

### High-Speed Transfers

Transfer files faster than ever before with speeds up to ten times faster than USB 2.0!
