Hard Drives - Black**

\$24.99

Product Images

Short Description

USB 2.0 is the most widely used port in modern computers, but with USB 3.0 emerging to provide up to ten times speed increase, the move to upgrade to USB 3.0 becomes more important. The FP36-E is SilverStone's solution for users to quickly upgrade cases that lack front USB 3.0 ports. With the internal 19pin cable that connects directly to the motherboard and mounting slots for two 2.5" hard drives. This is a must have accessory for any case.

Description

USB 2.0 is the most widely used port in modern computers, but with USB 3.0 emerging to provide up to ten times speed increase, the move to upgrade to USB 3.0 becomes more important. The FP36-E is SilverStone's solution for users to quickly upgrade cases that lack front USB 3.0 ports. With the internal 19pin cable that connects directly to the motherboard and mounting slots for two 2.5" hard drives. This is a must have accessory for any case.
