

SilverStone SDP10B 5.25" to 3.5" and 2.5" Bay Converter

\$11.99

Product Images

Short Description

The SDP10 is a new generation of 5.25" to 3.5" drive bay bracket that is capable of accommodating two additional 2.5" hard drives or SSDs (9.5mm thickness) in addition to a 3.5" drive. If you are building a system in which additional hard drive space is required and there are free 5.25" drive bays, the SDP10 is a great choice.

Description

The SDP10 is a new generation of 5.25" to 3.5" drive bay bracket that is capable of accommodating two additional 2.5" hard drives or SSDs (9.5mm thickness) in addition to a 3.5" drive. If you are building a system in which additional hard drive space is required and there are free 5.25" drive bays, the SDP10 is a great choice.
