$7.48 was
$14.95

Product Images

Short Description

Add ambient lighting to your computing atmosphere with a USB Powered LED strip. This add-on LED lighting promotes relaxation and calmness for your work or gaming area. In addition it serves as a low power solution back-light. When using a computer int he dark, the extreme brightness of the monitor can damage the eyes due to contrast of the light and dark.

Description

Add ambient lighting to your computing atmosphere with a USB Powered LED strip. This add-on LED lighting promotes relaxation and calmness for your work or gaming area. In addition it serves as a low power solution back-light. When using a computer int he

dark, the extreme brightness of the monitor can damage the eyes due to contrast of the light and dark. With an LED back-light the contrast is dramatically reduced making computer usage safe and comfortable. Save energy by using LED instead of a standard desk lamp for use as a back-light. This product is available in 5 colors, blue, red, white, green, and yellow.This item uses 5V power and required a standard USB 2.0 or 3.0 port.
