

# Koolance Drain Valve - Brass

\$12.99

## Product Images

## Description

Inline drain valve to expedite coolant evacuation without turning your unit upside-down. This product is designed to be placed inline on any hose. Simply choose fittings for the desired hose diameter. Construction is nickel-plated brass.

To use, install the valve on a hose near the bottom of your setup. When you need to empty the system, place a container below the valve and unscrew it. A segment of 6mm (1/4in) ID tubing can be attached to the drain nozzle. Next, open the top reservoir refill plug on your cooling system.

## Features

---

\*NOTE: Liquid Coolants Koolance's product warranty does not cover the use of 3rd-party coolants, coolant additives, or corrosion. Koolance LIQ-702 or LIQ-705 coolants are strongly recommended to help avoid issues with mixed metals or biological growth. Additionally, do not use aluminum with bare (unplated) copper or bare (unplated) brass in the same system. Do not use silver with nickel in the same system.\*
