\$41.99

## Product Images

## Short Description

Koolance video bridge connectors link multiple video water blocks together with ease. Flow can be directed in series or parallel. CNT-VDB1 is for combining two (dual L-bracket) video blocks which are in consecutive PCI-Express slots.

## Description

Koolance video bridge connectors link multiple video water blocks together with ease. Flow can be directed in series or parallel. CNT-VDB1 is for combining two (dual L-bracket) video blocks which are in consecutive PCI-Express slots. This product is only compatible with the following model(s):

- Koolance [VID-NXTTN](#) (TITAN / GTX 780)

NOTE: Hose barbs are recommended for 10mm (3/8in) and 13mm (1/2in) ID tubing sizes to avoid conflicting with the water block or video card.
