Short Description

Koolance video bridge connectors link multiple video water blocks together with ease. CNT-VDB4 is for combining four (dual L-bracket) video blocks in consecutive PCI-Express slots. This version uses a combination serial+parallel flow path to minimize pressure drop.

Description

Koolance video bridge connectors link multiple video water blocks together with ease. CNT-VDB4 is for combining four (dual L-bracket) video blocks in consecutive PCI-Express slots. This version uses a combination serial+parallel flow path to minimize pressure drop. This product is only compatible with the following model(s):

- Koolance [VID-NXTTN](#) (TITAN / GTX 780)

NOTE: Hose barbs are recommended for 10mm (3/8in) and 13mm (1/2in) ID tubing sizes to avoid conflicting with the water block or video card.
