## Short Description

---

Replacing our wildly popular EFZ-80HA2, we introduce the new and improved EFZ-80HA3! It fits in cases that simply cannot accommodate a large 120mm based heatsink, but doesn't sacrifice the performance you need to run your rig. Performs better than your stock cooler while operating at a lower noise, it's a perfect complement to your new system and ideal for those with moderate processing needs.

## Description

---

Replacing our wildly popular EFZ-80HA2, we introduce the new and improved EFZ-80HA3! It fits in cases that simply cannot accommodate a large 120mm based heatsink, but doesn't sacrifice the performance you need to run your rig. Performs better than your stock cooler while operating at a lower noise, it's a perfect complement to your new system and ideal for those with moderate processing needs. If you're not running a highly overclocked gaming system, there's no need to spend much on a giant heatsink that will yield no benefits to you. The EFZ-80HA3 utilizes two 6mm heatpipes that directly contact the CPU and are intertwined to provide four effective heatpipes worth of thermal dissipation. A universal mounting bracket supports the widest range of current AMD and Intel sockets, including the latest multicore Phenom and i3/i5 processors.

We've included an Effizio 80mm fan with 3rd generation fluid dynamic bearings for years of reliable performance and no need to purchase any additional fans, though you have the option of adding a second fan for more performance. The installation process is easy with a typical install time of under 10 minutes and does not require the removal of the motherboard. Each Effizio heatsink comes with a three year warranty from the date of purchase and as always, you can be sure of getting the service should you need it.

## Specifications

---

sku	EFZ-80HA3
rated dba	8-24
dimensions	67x86x113mm
materials	copper heatpipes, anodized aluminum fins
weight	305g
rpm	<2200
cfm	12-36
operating voltage	5-12v
current draw	<0.18A
power consumption	<2.16w
bearings	3rd generation fluid dynamic bearings
intel cpu compatibility	lga775, lga1155/1156
amd cpu compatibility	socket 754, 939, 940, AM2, AM2+, AM3, FM1

## Additional Information

---

Brand	SilenX
SKU	EFZ-80HA3
Weight	2.5000
Material	Copper/Aluminum
Fan Dimensions	80mm
Fan Connection	4-Pin PWM
Vendor SKU/EAN	854224001639
