## Product Images

## Short Description

---

The twinConnect direct connection kit allows direct linking of two graphics card waterblocks from the aquagratiX respectively aquagraFX series to one block and is hence perfect for use in Multi-GPU systems.

## Description

---

The twinConnect direct connection kit allows direct linking of two graphics card waterblocks from the aquagratiX respectively aquagraFX series to one block and is hence perfect for use in Multi-GPU systems.

The rebuilding kit contains a Delrin connection terminal which is mounted on the waterblocks (the existing connection terminals are replaced by this kit). Mounting of the waterblocks is possible with either one or two slots of spacing for maximum compatibility and flexibility. The unused connection area can be sealed with the included stainless steel plate. An included screw plug allows both parallel and serial connection of the two waterblocks.

## Specifications

---

Suitable for the following waterblock:

- aquagraFX für GTX 680 type 2 (Art. 12613) with one or two free slot(s) between the PCIe
- socketsaquagraFX for GTX 590 (Art. 12460) with one or two free slot(s) between the PCIe sockets
- aquagraFX for GTX 580 (Art. 12401) with one or two free slot(s) between the PCIe sockets
- aquagraFX for GTX GTX 570 (Art. 12401) with one or two free slot(s) between the PCIe sockets
- aquagraFX for GTX 570 Typ 2 (Art. 12459) with one or two free slot(s) between the PCIe sockets
- aquagraFX for GTX GTX 480 (Art. 12358/12378) with one or two free slot(s) between the PCIe sockets
- aquagraFX for GTX 470 (Art. 12365) with one or two free slot(s) between the PCIe sockets
- aquagraFX for GTX 460 (Art. 12386) with one or two free slot(s) between the PCIe sockets
- aquagratiX for HD 6970 (Art. 12427) with one or two free slot(s) between the PCIe sockets
- aquagratiX for HD 6970 Typ 2 (Art. 12451) with one or two free slot(s) between the PCIe sockets
- aquagratiX for HD 6870 (Art. 12402) with one or two free slot(s) between the PCIe sockets
- aquagratiX for HD 6850 (Art. 12403) with one or two free slot(s) between the PCIe sockets

- aquagratiX for HD 6790 (Art. 23513) with one or two free slot(s) between the PCIe sockets

Extent of delivery:

- 1 Delrin connection element
- 1 Sealing plate
- 2 gaskets for sealing plate
- 3 screws for sealing plate
- 1 screw plug (headless screw G1/4")

Please note:

Waterblock, graphics card and fittings not included! The displayed screw plugs are parts of the extent of delivery of the waterblock and not included with this twinconnect connection kit! Multi-GPU operation is also possible without this kit!

## Additional Information

---

Brand	Aquacomputer
SKU	AQ-23497-D
Weight	0.4000
Color	Black
Vga	Universal
Block GPU Type	Nvidia/AMD
Block Accessory Type	SLI Bridge
Special Price	\$6.99
