individual purchase of the tubes has multiple advantages.

Description

As an accessory to the Phobya Balancer reservoirs, Phobya now offers the "bodies" (Plexi tubes) separately. The possibility of individual purchase of the tubes has multiple advantages:

If your tube is worn, scratched or damages, it is no longer necessary to replace the whole reservoir.

Should the reservoir have become too small e.g. for an upgraded system, it is now possible to replace the tube by a bigger one or to connect a second one with a tube connector piece (Item No. 46142).

Specifications

- Material: Acrylic
- Length: 412mm (identical with Phobya Balancer 450 tube)
- Outer diameter: 50mm

Note: O-rings not included!
