

BitFenix Shadow ATX Computer Case - Black

\$79.95

Product Images

Short Description

Featuring an incredibly clean design, Shadow brings modern BitFenix styling to a surprisingly affordable ATX form factor. The magnetic door, coated in BitFenix SofTouch™ Surface Treatment, is underlined with a selectable LED accent that can be easily switched to red, blue, or even turned off from the top control panel. A terrific base for the modern PC, Shadow easily accommodating long graphics cards up to 320mm in length, and CPU tower coolers up to 165mm tall. The ample storage capacity enables up to seven 3.5" HDDs to be installed, along with a single 2.5" SSD. Two Superspeed USB 3.0 ports facilitate quick file transfers, and removable dust filters help keep the insides dust free. Equipped with DIY-friendly features such tool-free drive locking, cable management locations, and a powder-coated all-black interior, Shadow delivers a trifecta of style, function, and value.

Features

Sleek and Modern with Selectable LED Accent

Shadow keeps an incredibly clean look with a magnetic door clad in signature BitFenix SofTouch™ Surface Treatment. Underneath is an LED accent that can switch between red and blue to match your build, or can be turned off with the push of a button. With a no-nonsense, streamlined form factor, the modern PC finds the perfect home with Shadow.

Enhanced Hardware Compatibility

To ensure that you've got enough firepower to do the job, Shadow enables you to install graphics cards up to 320mm in length. And for optimal air cooling, tower CPU coolers up to 165mm in height can be installed.

Multiple Cooling Options

When the competition heats up, there's no time for system crashes due to excessive heat. Shadow offers four 120mm fan locations for excellent airflow. To get you started, Shadow comes fully equipped with two 120mm Spectre fans.

Ample Storage Capability

With the explosion of high-definition content, users are going to need a lot more storage to keep it all. Shadow offers no less than seven 3.5" HDD bays for massive storage capability. You can even install a 2.5" SSD on the bottom of the case for lightning-fast boot times.

Removable Dust Filters

Your system should look good inside and out. Featuring a large removable dust filter on the front of case, along with dust filters for the power supply and the bottom intake fan location, Shadow keeps dust where it belongs - outside your PC.

SuperSpeed USB 3.0

Enabling speeds up to ten times that of the previous generation, USB 3.0 is the new transfer standard. Shadow comes with two SuperSpeed USB 3.0 ports, ensuring blazing file transfers and increased throughput.

BitFenix Quality

Each BitFenix case includes a plethora of useful features that make building your system a trouble-free task. A large CPU cutout is included for quick CPU cooler changes, while cable management features keep cable clutter to a minimum. With a brushed BitFenix aluminum logo and tool-free drive locking mechanisms for easy drive installation, the Shadow users can feel the BitFenix Experience.
