

Thermaltake Water 3.0 Performer All-In-One Liquid Cooling System

\$69.95

Product Images

Short Description

For a liquid cooler, enthusiasts not only looking for an easy and clean setup to efficiently calm the roaring CPU, more likely they also crave for the best low-maintenance solution. The new Thermaltake All-In-One LCS Water 3.0 Series is formed to support these desires of enthusiasts.

Description

Water 3.0 Performer

For a liquid cooler, enthusiasts not only looking for an easy and clean setup to efficiently calm the roaring CPU, more likely they also crave for the best low-maintenance solution. The new Thermaltake All-In-One LCS Water 3.0 Series is formed to support these desires of enthusiasts. Upgrade the simplicity of liquid CPU cooling to enjoy better cooling performance and protect the investment in the CPU as well.

High Performance Waterblock

Full copper base plate enables maximizing the heat conductivity. Plus, it helps improve case's airflow too.

High Efficiency Radiator

27mm thickness radiator benefits rapider cooling surface

Double Curve Fan

Dual 12cm high airflow PWM fans (1200~2000rpm) for faster heat dissipation and tranquility

High Reliability Pump

The high quality reliable pump enables maximizing the water circulation and keeping the copper plate continuously cool.

Easy and simple installation

The Water 3.0 Series features the latest cooling performance technology from Thermaltake, with simple

installation, and totally maintenance-free operation. Unlike full-blown air coolers, but easy to install and don't take up much room in your case.

Additional Information

Brand	Thermaltake
SKU	CLW0222
Weight	4.0000
Block CPU Type	Intel/AMD
Vga	AMD Radeon RX 6800XT Nitro+
Pump Type	Other
Radiator Size	120 (1 x 120mm)
Radiator Thickness	27mm
Vendor SKU/EAN	841163054352
