\$9.49

Product Images

Short Description

EK-DDC Anti-Vibration Mounting is a simple, yet effective mounting upgrade kit for any [EK-DDC type water pump](#). This vibration dampening rubber mounting system effectively de-couples the water pump from the rest of the computer chassis.

Description

EK-DDC Anti-Vibration Mounting is a simple, yet effective mounting upgrade kit for any [EK-DDC type water pump](#). This vibration dampening rubber mounting system effectively de-couples the water pump from the rest of the computer chassis.

Fits any EK-DDC [X-RES](#) as well as [X-TOP](#) product and can be easily used to fixate the pump assembly to any flat surface using 50x50mm square mounting hole pattern.

Specifications

Enclosed:

- Mounting mechanism with vibration decouplers
- Allen key 2mm

Made in Slovenia - EU!

PLEASE NOTE:

- EK does not guarantee compatibility with other brands DDC water pumps or 3rd party pump tops (volute). Only EK-DDC family products are supported!
- Vibration damping mounting cannot be used with original Laing DDC pump top (volute)!
