Description

Design Concept of Siberian PRO:

Siberian PRO CPU Cooler is a low noise top flow design cooler. The cooler contains a silent 92mm fan with GELID intelligent PWM control and an appropriate premium aluminum heat sink. The optimized GELID PWM intelligent control achieves the best noise-cooling-price ratio in its class and allows users to set the fan speed in their BIOS accordingly. With a compact size and a height of just 89mm it is especially designed for HTPC and small chassis.

The fan of Siberian PRO guarantees a silent operation and achieves high airflow. Thanks to the top flow design the Siberian enables to keep components cool around the CPU.

Additionally mounting clips for AMD 754, 939, AM2, AM2+, AM3, AM3+, FM1 and for Intel 775, 1150, 1155 and 1156 are all included:

The cooler is RoHS and WEEE conform and carries a 5 year warranty.
