Short Description

The Koolance VID-NXTTN2 is a full coverage video block for water cooling NVIDIA reference GeForce GTX TITAN, GTX 780, and GTX 780 Ti cards in single and multi video card configurations. It utilizes a high-performance microfin (0.5mm) design made of solid copper with anti-corrosive nickel plating. An aluminum back plate is included to handle the rear memory chips.

Description

(This product is functionally identical to [VID-NXTTN](#), but adds support for GTX 780 Ti.) The Koolance VID-NXTTN2 is a full coverage video block for water cooling NVIDIA reference GeForce GTX TITAN, GTX 780, and GTX 780 Ti cards in single and multi video card configurations. It utilizes a high-performance microfin (0.5mm) design made of solid copper with anti-corrosive nickel plating. An aluminum back plate is included to handle the rear memory chips.

Fitting threading is standard G 1/4 BSPP. For multiple card configurations, video [connectors](#) are also available.

NOTE: This product is based on the original reference board layout. It will not fit video cards which have been changed from the original AMD or NVIDIA reference spec.

Specifications

Specifications:
