Aquacomputer Real Time Clock Push-on Module for Aquaero 5

$20.50

Product Images

Short Description

Expansion module for aquaero 5 XT/PRO/LT and aquaero 6 XT/PRO (not included). The Real Time Clock expansion module supplements your existing aquaero with a battery buffered real time clock, especially interesting for aquaero controllers that do not have a permanent USB connection to a PC. The module can be mounted directly on top of the aquaero controller, suitable monting material is included. When monted, the Real Time Clock expansion module is connected to the aquabus (high speed) connector of the aquaero, the module itself features two aquabus (high speed) connectors for further expansion modules.

Description

Expansion module for aquaero 5 XT/PRO/LT and aquaero 6 XT/PRO (not included). The Real Time Clock expansion module supplements your existing aquaero with a battery buffered real time clock, especially interesting for aquaero controllers that do not have a permanent USB connection to a PC.
