

Thermaltake TG-4 Extreme High Grade Thermal Grease

\$6.99

Product Images

Short Description

Thermaltake high performance and exceptional reliability Thermal grease, to maximize heat transfer by eliminating the minute air gap between the heat source and the heat sink caused by their irregular surfaces.

Description

Thermaltake Thermal Grease - TG4

-  Thermaltake high performance and exceptional reliability Thermal grease, to maximize heat transfer by eliminating the minuite air gap between the heat source and the heat sink caused by their irregular surfaces.

High Thermal Conductivity

Lighter, easier to spread stable composition won't crack or dry out, delivering excellent long-lasting thermal conductivity.

High Fluidity

-  Producing an even layer with high fluidity when using applicator.

Long life span

More effective than standard silicon-based heat grease/CPU paste, providing optimum protection against CPU heat damage for a long life span usage.

Made for Extreme Performance

-  TG-4 is optimized for use between modern high-power CPUs and high-performance heatsinks or water-cooling solutions.

Easy to use

Easy to use on the contact surface of the heatsink to improve the heat dissipation of the processor

Note: This Item can not be shipped using DHL

Specifications

P/N	CL-O001-GROSGM-A
Thermal Conductivity	3.3 W/m-k
Dimension	120.5 x 71 x 16.3 mm
Color	Gray

Weight	1.5g
Shelf-Life	24 months from DOM
Operating Temperature	-50°C ~ 250°C

* Specifications are subject to change without notice.
* The product picture(s) is only for your reference, it may differ from the actual product.

Additional Information

Brand	Thermaltake
SKU	CL-O001-GROSGM-A
Weight	0.2500
TIM Type	Paste
