

EK-Cable Y-Splitter 2-Fan PWM (10cm)

\$4.49

Product Images

Short Description

EK-Cable Y-Splitter 2-Fan PWM is a simple adapter used to hook two DC or PWM fans to one motherboard 4-pin PWM or 3-pin DC FAN connector. Please note RPM sensing will only work for one fan when using this cable.

Description

EK-Cable Y-Splitter 2-Fan PWM is a simple adapter used to hook two DC or PWM fans to one motherboard 4-pin PWM or 3-pin DC FAN connector. Please note RPM sensing will only work for one fan when using this cable.

Caution: Do not use high power fans with this adapter due to the possibility of overloading motherboard fan power regulator. The limit of a fan header on a typical motherboard is usually around ~10W.

Features:

- Connect two (PWM) fans from one (PWM) fan header
- Compatible with 3-pin DC fans and fan connectors.
- Fully sleeved cables (total length ~ 100mm)
- RoHS compliant

Made in China for EKWB!

Additional Information

Brand	EK Waterblocks
SKU	EK-CAB-PWM-Y-2-10
Weight	0.4000
Color	Black
Cable Type	3-Pin Fan Splitter
Length	10cm
Vendor SKU/EAN	3831109867860
