Black Ice Nemesis 360GTX® Dual-Core Xtreme Profile Radiator - Black Carbon

\$114.95

Product Images

Short Description

The Black Ice® Nemesis® 360GTX® is designed for the professional casemod professional who takes a no compromise approach to performance, design, and build quality. Using the new Nemesis® platform makes it possible to take advantage of extreme triple-fan performance at ultra-stealth noise levels.

Description

The Black Ice® Nemesis® 360GTX® is designed for the professional casemod professional who takes a no compromise approach to performance, design, and build quality. Using the new Nemesis® platform makes it possible to take advantage of extreme triple-fan performance at ultra-stealth noise levels.

Features

- 120 mm x 3 fan Xtreme form factor two-pass radiator
- 398mm x 133mm x 54mm (L x W x H)
- 16 FPI 25 Micron Copper Fins
- Now optimized for sub-800 rpm ultra-stealth fans
- Supercruise optimizations for scalable performance with higher speed fans
- 15% more tubing area in the same Black Ice® GTX™ 240 form factor
- Increased internal coolant flow rates
- Standard G 1/4" inlet/outlet fittings
- Standard M4 mounting threads
- Compatible with Black Ice® Xtreme III, Black Ice® GTX™ 360 radiators
- Custom Black Carbon™ high quality finish
- Fully ROHS Compliant
- 100% Made from conflict-free materials
- Industry standard Black Ice® quality
- Lifetime warranty against manufacturing defects*

* Limited warranty information: www.hardwarelabs.com/nemesis/warranty

** radiator shown with optional push fittings

Additional Information

Brand	Hardware Labs
SKU	N360GTX-F2PB
Weight	6.0000
Color	Black
Radiator Size	360 (3 x 120mm)
Radiator Thickness	54mm
Vendor SKU/EAN	4806518484716

February 14th, 2015 HW Labs Black Ice Nemesis 360GTX Radiator Review

"The Hardware Labs Black Ice GTX Gen Two Xtreme 360 is a beautiful radiator. The gloss black finish was completely free of any desirable defects. All the solder joints looked flawless as well. There is no doubt that when looking at the GTX 360 that it is finely crafted. There is certainly nothing to complain about when it comes to the high speed fan testing though. Here we the Black Ice GTX 360 outperformed every one of our test units. If you need strong performance and do not mind pushing some higher RPM fans or are planning on using a push/pull fan arrangement, it is one of the best in the class." Read the Full Review [HERE](#).

HardwareLabs have produced another great performing radiator to add to the award winning Black Ice range. The Nemesis 360GTX's thermal performance was great at all flow rates and fan speeds tested but it really shone against the competition in the low fan speed tests. Presumably with only one set of fans it would do well across the whole range. The Nemesis GTX is a high quality radiator with solid performance that is tuned for low speed fans. [Click here to read more!](#)

Proclockers Review:
If you need strong performance and do not mind pushing some medium RPM fans or are planning on using a push/pull low speed fan arrangement, it is one of the best in the class. [Click here to read more](#)

October 23, 2014 The Quad Rad Roundup

"Performance should never be the sole metric to base a radiator choice on. In fact, never buy a radiator separately- get the radiator and appropriately chosen fans in terms of airflow, static pressure and noise levels you are comfortable with. "The HWL (Black Ice NEMESIS) rads scale great with airflow while the XSPC RX V3 does not- goes to show that liquid and air flow restrictions don't tell everything and the entire package can affect things. The Nemesis series was optimized for scaling and it has showed to be the case in here." -Varun S. Gangoli. Read the whole review [HERE](#).
