

Aquacomputer Passive Heatsink for Aquaero 6 - Black

\$16.95

Product Images

Short Description

Mounted on an aquaero 6 controller, this passive heat sink improves heat dissipation and thereby increases the maximum power output of the fan channels.

Description

Mounted on an aquaero 6 controller, this passive heat sink improves heat dissipation and thereby increases the maximum power output of the fan channels. For optional active cooling, the aquaero 5 water block (art. no. 20023) can be installed on top of the passive heat sink. Passive heat sink and Real Time Clock module (art. no. 70215) can be installed simultaneously, additional mounting material is included in delivery of the passive heat sink.

Specifications

Scope of delivery:

- Aluminum heat sink for aquaero 6
- Thermally conductive pad
- Mounting material

Compatible with:

- Aquaero 6 PRO (70227)
- Aquaero 6 XT (70028)

Please note: aquaero 6 and water block are not included in delivery! If using the water block that has no second respectively narrower bump (very old version) washers must be used for mounting it.
