Silverstone (SST-CP11-300) Low Profile Ultra Thin 90 Degree 6Gb/s SATA Cable - 300mm

$11.99

Product Images

Short Description

SilverStone engineers, whom are used to creating no compromise products such as cases that offer world-class cooling with minimal noise, took up the challenge to design a cable that will allow SATA connectors to be used even with long graphics cards installed. After months of research and development, the CP11, a revolutionary SATA cable, was conceived.

Description

For many enthusiasts, one of the biggest letdowns while installing or upgrading graphics cards is to find out the cards blocks off SATA connectors on their motherboards. This is still a common occurrence as motherboards are made with the assumption that users with long and powerful graphics card don't need to use all SATA connectors while users with lots of SATA drives typically don't need to install long cards. SilverStone engineers, whom are used to creating no compromise products such as cases that offer world-class cooling with minimal noise, took up the challenge to design a cable that will allow SATA connectors to be used even with long graphics cards installed. After months of research and development, the CP11, a revolutionary SATA cable, was conceived. It has incredibly low connector profile that is barely taller than the SATA connector on the motherboard to clear any card that you may wish to install. CP11 also has super-thin wires designed to the limit of allowable SATA standard

with high quality material for uncompromised data and bandwidth integrity. They are so thin that CP11 can be routed into the tiny gaps between SATA connectors on the motherboard! If you want to utilize SATA connectors that were originally blocked off or want to upgrade your card without sacrificing SATA connections, the CP11 is your perfect solution.

Specifications

Model No.	SST-CP11 (blue cable, 300mm) SST-CP11B-300 (black cable, 300mm) SST-CP11B-500 (black cable, 500mm)
Color	Black connector, blue cable (CP11) Black connector, black cable (CP11B)
Connectors	Lateral 90° angled SATA connector
Length	300mm / 500mm
Transmitting Speed	6Gb/s

Additional Information

Brand	SilverStone Technology
SKU	RL-CP11B-300
Weight	0.1000
Color	Black
Cable Type	SATA Power Extension
Vendor SKU/EAN	844761011383
