Short Description

PrimoChill is once again helping performance enthusiasts, case modders, and those in search of the “Next Best” thing in watercooling. PrimoChill Rigid PETG Tube is one step further in the evolution of computer watercooling enabling the user to make the tightest bends and straightest runs without the need of excessive compression fittings and 90 degree angle rotaries.

Description

PrimoChill is once again helping performance enthusiasts, case modders, and those in search of the “Next Best” thing in watercooling. PrimoChill Rigid PETG Tube is one step further in the evolution of computer watercooling enabling the user to make the tightest bends and straightest runs without the need of excessive compression fittings and 90 degree angle rotaries. The less your build requires the more time and money you save searching for the right fitting.

Measure - Cut - Bend - Install- DONE!

Comes in a variety of colors to fit your individual build.

Please watch our [Youtube video](#) for a bending how to.

With the use of different components, materials, fluids, and flow rates, results may vary with the appearance of your tubing. Rigid PETG Tube is designed to work with a large variety of cooling components, however the use of alcohols, Ethylene Glycol and as well as any other harmful chemicals is strictly prohibited and will void your warranty. PrimoChill is not responsible for any damage caused by or when using this product. Please use at your own risk.
