

Alphacool GPX SLI Connector - Single

\$18.50

Product Images

Short Description

Matching the new GPX graphics card coolers, the SLI bridges are now available. But these are not simple SLI bridges you can also use LEDs to light up the blue Plexiglas or the Alphacool logo.

Description

Matching the new GPX graphics card coolers, the SLI bridges are now available. But these are not simple SLI bridges you can also use LEDs to light up the blue Plexiglas or the Alphacool logo.

Installation is very simple using the included fittings. The special connections have on one side the ¼ "thread and on the other side just a straight piece of pipe which is simply plugged only into the SLI bridge (double O-ring). So the installation can also be done if the coolers are mounted.

- Scope of delivery:
- 1 x SLI bridge
 - 2 x connectors
