

EK-MOSFET MSI X99 XPower - Acetal+Nickel

\$74.00

Product Images

Description

EK-MOSFET MSI X99 XPower is a water block for water cooling of the power regulation (VRM / MOSFETs) module on [MSI X99S XPOWER AC](#) motherboard. It features a high flow design allowing the water block to be easily used with systems using weaker water pumps.

Base is made of nickel-plated electrolytic copper while the top is made of quality POM Acetal material. The sealing is ensured by the use of quality rubber gasket.

This product features preinstalled nickel-plated brass standoffs. Enclosed is also a EK engineered backplate, made from black anodized aluminium, which improves heat transfer by cooling the back side of the circuit board as well.

Specifications

Enclosed:

- EK-MOSFET MSI X99 XPower series water block
- thermal pads
- mounting mechanism

Fittings are not enclosed! Two fittings are needed to complete the installation!

Made in Slovenia - Europe!

Please note:

- Due to immense variety of fittings/barbs available on market and no prescribed standards, we guarantee compatibility only for connectors bought from our web site.

Additional Information

	No
	Nickel Acetal
	G1/4

Additional Information

Brand	EK Waterblocks
SKU	EK-MOSFET-MSI-X99-ACNK
Weight	1.0000
Color	Black
Chipset Motherboard	MSI Power X99
Block Style	Nickel-Acetal
Vendor SKU/EAN	3831109815403
