

E22 E22 Cable Comb - 4-24 Slots - Black

\$0.00

Product Images

Description

The E22 cable comb makes it easy for anyone to achieve professional results on even the most unruly cable runs. They have been designed to work perfectly with the Teleios brand of 4mm sleeving and have just the right amount of retention to hold the cable into the comb without tarnishing the sleeve.

These clear little combs are available in 4 sizes (4, 6, 8, 24) to suit any build configuration.

ps... they also work great for that final photo shoot when you don't want messy cables ruining a great build =)
