## Product Images

## Short Description

Alphacool's fittings go new ways in looks, quality of manufacturing, colours and choice. The inner diameter of these fittings truly deserves the „high flow“ attribute!

The first three colours, Chrome, Deep Black and Shiny Copper offer something for every taste. The product matching series are designed to look elegant in every system, highlighting the individual design of the

computer. The limits are endless with these Alphacool fittings in combination with Alphacool tubing!

## Description

---

Alphacools's fittings go new ways in looks, quality of manufacturing, colours and choice. The inner diameter of these fittings truly deserves the „high flow“ attribute!

The first three colours, Chrome, Deep Black and Shiny Copper offer something for every taste. The product matching series are designed to look elegant in every system, highlighting the individual design of the computer. The limits are endless with these Alphacool fittings in combination with Alphacool tubing!

With a new process during chromatising the surface finish is completely connected with the brass body, hence ensuring permanent intense colours and peeling of the chrome layer. The Alphacool name in blue lettering on some of the fittings additionally underlines the individuality of these items.

Functionality of this connector:

This angled adaptor can be used to elegantly work around obstacles in the system. The 45° angle and the revolvable design allow easy adjustments after the adaptor is installed. The two inner threads give freedom of choice regarding fittings, making this adaptor an essential helper for your system.
