

ModMyToys 4-Pin PWM Low Profile Power Distribution PCB - 8-Way Block

\$14.99

Product Images

Short Description

ModMyToys New Low Profile PCB version is perfect to hide these gems in tight spaces, even behind your motherboard tray! With new 180 degree headers these are the cleanest and best PCB we have offered to date. This new dual layer PCB allows power in via 3-pin fan, PWM connection, or SATA Power with outputs to 3-pin or 4-pin PWM fans. This gives you tremendous choices and options!.

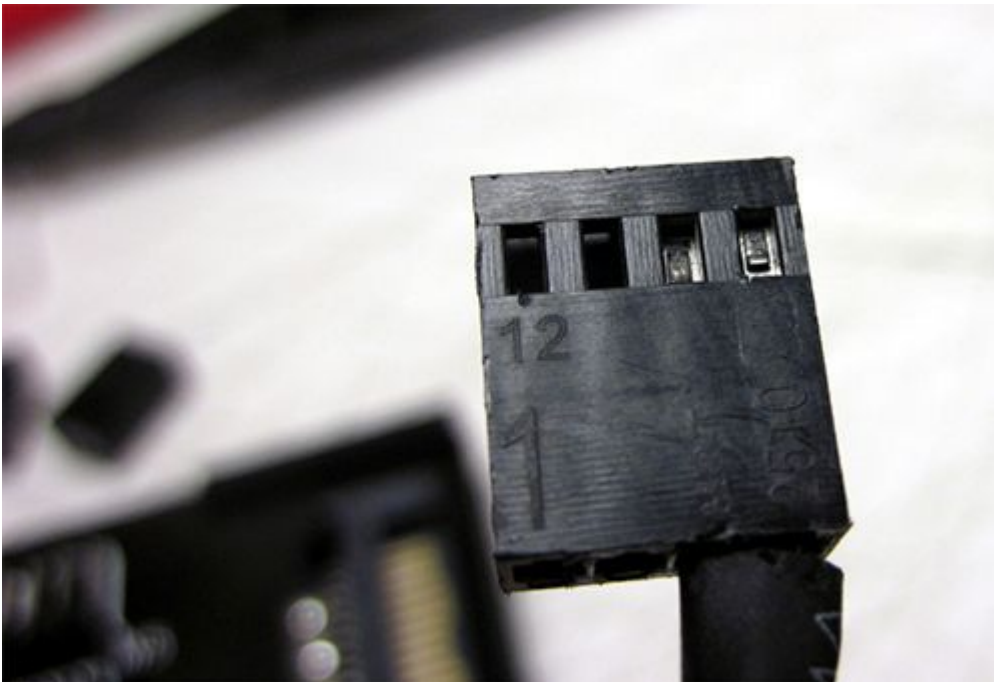

Description

ModMyToys New Low Profile PCB version is perfect to hide these gems in tight spaces, even behind your motherboard tray! With new 180 degree headers these are the cleanest and best PCB we have offered to date. This new dual layer PCB allows power in via 3-pin fan, PWM connection, or SATA Power with outputs to 3-pin or 4-pin PWM fans. This gives you tremendous choices and options!

These 4-Pin PWM Power Distribution PCB is the perfect organizational solution for hard core modder's, water cooling enthusiasts and other power users that use a large amount of cooling fans in their systems or servers. Why use clumsy Y splitters that just add to cable clutter when you can have a clean point to distribute power to all your 4-pin PWM fans? These small PCB's are made of the highest quality and include an easy to install preinstalled black mount rail and Velcro strip. This allows you to mount virtually anywhere in your case including all those hidden places modder's like to route their cables to. For those that want the best look these have a black PCB and connectors. So, eliminate all those extra cables and install the ModMyToys 4-pin PWM power distribution PCB to be a Pro!

Please note for a PWM signal to work properly fan to motherboard you should match and only use the same PWM fan models on the same PCB. Do not mix fans or there will be mixed signals.

These Power Distributors need a Female to Female PWM with only the RPM and PWM leads attached going from the PCB to the MotherBoard PWM Header to control the PWM function.(Image of cable listed below)

Features

- High Quality PCB
- Small, lightweight size fit almost anywhere!
- 180 Degree headers for low profile stance
- Input power: 4-Pin Male PWM, 3-pin Male or SATA power
- Output 8 x 4-pin PWM Male Fan Headers (can also accommodate 3-pin fans instead)
- Preinstalled Velcro fastener for easy installation

Notes:

- For connection to Motherboard 4-pin PWM or 3-pin header or PSU SATA Power connector.

Additional Information

Brand	ModMyToys
SKU	MMT-PCB-LP8-PWM
Weight	0.2000
Color	Black
Fan Accessory Type	Splitter PCB
