# Black Ice Nemesis 360GTS® Ultra Stealth U- Flow Low Profile Radiator - Primer

\$72.95

## Product Images

## Short Description

---

The Black Ice® Nemesis® 360GTS® renders best in class quality and performance for the discriminating casemod professional. Supercruise optimizations exploit low-noise fans for scaled performance in a low-profile triple triple 120mm fan envelope. This allows professional users a single radiator solution for multi-CPU/GPU implementations that simply fits.

## Description

---

The Black Ice® Nemesis® 360GTS® renders best in class quality and performance for the discriminating casemod professional. Supercruise optimizations exploit low-noise fans for scaled performance in a low-profile triple triple 120mm fan envelope. This allows professional users a single radiator solution for multi-CPU/GPU implementations that simply fits.

## Features

---

- 120 mm x 3 fan slim form factor two-pass radiator
- 398mm x 133mm x 29.6mm (L x W x H)
- 16 FPI 25 Micron Copper Fins
- Now optimized for sub-800 rpm ultra-stealth fans
- Supercruise optimizations for scalable performance with higher speed fans
- 15% more tubing area in the same Black Ice® GTS™ 360 form factor
- Increased internal coolant flow rates
- Standard G 1/4" inlet/outlet fittings
- Standard M4 mounting threads
- Compatible with Black Ice® Pro III, Black Ice® GTS™ 360 radiators
- Fully ROHS Compliant
- 100% Made from conflict-free materials

- Industry standard Black Ice® quality
- Lifetime warranty against manufacturing defects\*

\* Limited warranty information: [www.hardwarelabs.com/nemesis/warranty](http://www.hardwarelabs.com/nemesis/warranty)

\*\* radiator shown with optional push fittings

# Additional Information

Brand	Hardware Labs
SKU	N360GTS-F2PP
Weight	3.0000
Color	Primer White
Radiator Size	360 (3 x 120mm)
Radiator Thickness	30mm
Vendor SKU/EAN	4806518483115

Internet Reviews

October 23, 2014 The Quad Rad Roundup

"Performance should never be the sole metric to base a radiator choice on. In fact, never buy a radiator separately- get the radiator and appropriately chosen fans in terms of airflow, static pressure and noise levels you are comfortable with. "The HWL (Black Ice NEMESIS) rads scale great with airflow while the XSPC RX V3 does not- goes to show that liquid and air flow restrictions don't tell everything and the entire package can affect things. The Nemesis series was optimized for scaling and it has showed to be the case in here." - Varun S. Gangoli. Read the whole review [HERE](#).

The HardwareLabs Nemesis 360GTS is an excellent choice where space limitations are a concern. It's build quality and finish lives up to HWL industry leading standards. It's also a top performer in the slim radiator category. Hard to go past this one if it fits your build's requirements of a stealthy slim radiator. [Click here to read more!](#)
