Black Ice Nemesis 480GTS® Ultra Stealth U- Flow Low Profile Radiator - Primer

\$82.99

Product Images

Short Description

The Black Ice® Nemesis® 480GTS® is the first official quad fan stealth implementation for the Black Ice® series of radiators. This radiator not only features the optimized Black Ice® Nemesis® GTS® core but now gives hardcore casemod professionals a quad-fan stealth form factor solution that can take advantage of low-noise 4 x 120mm fans for even greater versatility.

Description

The Black Ice® Nemesis® 480GTS® is the first official quad fan stealth implementation for the Black Ice® series of radiators. This radiator not only features the optimized Black Ice® Nemesis® GTS® core but now gives hardcore casemod professionals a quad-fan stealth form factor solution that can take advantage of low-noise 4 x 120mm fans for even greater versatility.

Features

- 120 mm x 4 fan slim form factor two-pass radiator
- 518mm x 133mm x 29.6mm (L x W x H)
- 16 FPI 25 Micron Copper Fins
- Now optimized for sub-800 rpm ultra-stealth fans
- Supercruise optimizations for scalable performance with higher speed fans
- 15% more tubing area in the same Black Ice® GTS™ 480 form factor
- Increased internal coolant flow rates
- Standard G 1/4" inlet/outlet fittings
- Standard M4 mounting threads
- Fully ROHS Compliant
- 100% Made from conflict-free materials
- Industry standard Black Ice® quality

- Lifetime warranty against manufacturing defects*

Internet Reviews

October 23, 2014 The Quad Rad Roundup

"Performance should never be the sole metric to base a radiator choice on. In fact, never buy a radiator separately- get the radiator and appropriately chosen fans in terms of airflow, static pressure and noise levels you are comfortable with. "The HWL (Black Ice NEMESIS) rads scale great with airflow while the XSPC RX V3 does not- goes to show that liquid and air flow restrictions don't tell everything and the entire package can affect things. The Nemesis series was optimized for scaling and it has showed to be the case in here." -Varun S. Gangoli. Read the whole review [HERE](#).
