Jump Start EPS/ATX 24 Pin Power Supply Jumper On/Off Switch (White/Grey/Black)

Do you need to turn on an ATX power supply without a motherboard? Tired of using paperclips, or other rigged methods of turning the system on? Then our ATX Power Supply Reset Switch is the answer.

The switch features a 24-pin female Molex connector that hooks up to your PSU to spoof the motherboard connection. So simply press the button, and turn your power supply on.
