Short Description

DarkSide LED was designed from scratch by adapting luxury automotive LEDs to computer modding. Our LED features ultra-bright Japanese LED modules, custom design circuit board, and custom DarkSide Connect micro-connectors.

Description

DarkSide LED was designed from scratch by adapting luxury automotive LEDs to computer modding. Our LED features ultra-bright Japanese LED modules, custom design circuit board, and custom DarkSide Connect micro-connectors.

Our new version, DarkSide Connect, adds a modular power extension cable to the design. It allows you to select the best power cables as an option for your modding LED. It also makes it easy to change to another type of connectivity without replacing the entire LED product.

We have a wide range of DarkSide Connect cables to help reduce cable clutter in your custom computer systems. It will help you with building your unique computer to perfection.

LED Strip comes factory sleeved Black/Black.

Secondary pictures show UV version installed on FrozenQ bay reservoir and FrozenQ 160 Series.
