Short Description

When that plain ole dreary black rad won't cut it, let us slap some paint on it! Performance-PCs is proud to now offer the new Hardware Labs Black Ice Nemesis primered radiator line custom-painted in an assortment of colors in-house. For individual product model specs please see the individual radiator on the website for details.

Description

When that plain ole dreary black rad won't cut it, let us slap some paint on it!

Performance-PCs is proud to now offer the new Hardware Labs Black Ice Nemesis primered radiator line custom-painted in an assortment of colors in-house. For individual product model specs please see the individual radiator on the website for details.

Color choices:

- Sunburst Yellow
- Deep Blue ("Cool Blue")
- Gloss Orange
- Grabber Green ("Nvidia Green")
- Gloss Purple

Please keep in mind we only spray the frame of the rad; not the fins and tubes which can hinder performance. If you don't see a color you're looking for available, we can pick up practically any color requested for additional cost. Please email Customer Service for details.

*Note: please keep in mind that this *is* rattle-can paint, and paint can scuff with little effort so please be careful when installing your rad; we are not responsible for damage to the finish once it's been shipped to you! May be slight delay in shipment due to required cure-time for paint; please understand this when

Additional Information

Brand	Hardware Labs	
SKU	NEMESIS-CUSTOM-GGN	
Weight	2.5000	
Color	Green	
Radiator Thickness	44mm
