Description

PrimoChill CTR™ (Compression Tube Reservoir) System Phase II replacement Tube.

CTRs are the next best thing in the water cooling industry giving the user the flexibility of color as well as sizes to fit their build perfectly.

CTRs are certain to be copied, but remember that PrimoChill's are Made in the USA, by Americans.

Warnings/Cautions:

Use of caustic coolant will void your warranty and cause your reservoir to crack. PrimoChill is not responsible for any hardware damage. Use at your own risk.
