Description

The Black Ice® NEMESIS® Series L Radiators are designed for optimum placement, fit, and value. The Series L arrives in both Stealth (LS) and Xtreme (LX) form factors.

The Black Ice® NEMESIS® LS is a more compact version of the Black Ice® NEMESIS® GTS® radiators with a 120mm/140mm width maintaining comparable performance and sharing the same build quality with their flagship Black Ice® counterparts.

The Series L shares the same DNA with the industry standard Black Ice® NEMESIS® GT® GTS® and GTX® radiators and is built for *(not with)* system builders and equipment integrators who demand utmost reliability and value.

True to form, built-in Supercruise™ optimizations, give the Series L radiators provide true scalable performance to allow optimum performance in a wide range of fan speeds. All built with the same renowned Black Ice quality by Hardware Labs.

The Black Ice® NEMESIS® Series L are available in single to quad fan 120mm and 140mm form factors.
