Black Ice Nemesis 420GTS® Ultra Stealth U- Flow Low Profile Radiator - Red

\$87.50

Product Images

Short Description

The Black Ice® Nemesis® GTS® scales performance by utilizing low-noise dual sub-800 rpm 140mm fans for even better performance with a reduced noise footprint. This provides casemod enthusiasts with a slim form factor dual fan radiator with the enhanced performance without the acoustic penalties.

Additional Information

Brand	Hardware Labs
SKU	N420GTS-F2PR
Weight	6.0000
Color	Red
Radiator Size	420 (3 X 140mm)
Radiator Thickness	30mm
Vendor SKU/EAN	4806518483566

October 23, 2014 The Quad Rad Roundup

Internet Reviews

"Performance should never be the sole metric to base a radiator choice on. In fact, never buy a radiator separately- get the radiator and appropriately chosen fans in terms of airflow, static pressure and noise levels you are comfortable with. "The HWL (Black Ice NEMESIS) rads scale great with airflow while the XSPC RX V3 does not- goes to show that liquid and air flow restrictions don't tell everything and the entire package can affect things. The Nemesis series was optimized for scaling and it has showed to be the case in here." -Varun S. Gangoli. Read the whole review [HERE](#).
