Short Description

Born from years of feedback from our customers, we are proud to bring you the new LF Reaction series of reservoirs, our highest quality and most customizable cylinder reservoir to date.

Description

Born from years of feedback from our customers, we are proud to bring you the new LF Reaction series of reservoirs, our highest quality and most customizable cylinder reservoir to date.

Features

More Ports: 2 bottom facing and 2 top facing ports make loop planning more flexible.

New Aluminum Rings: Double thick aluminum rings create a heavy, sturdy feeling reservoir and add a great aesthetic element. The new rings are press fit and no longer require tightening via a set screw.

Concealed Threads: Tube threading is concealed creating a clean, streamlined look from top to bottom.

Locking Helix: The internal helix structure now locks into place, so the helix will never rotate and block ports.

Specifications

Dimensions: 9.84"x2.375"x2.375" (250mmx60.3mmx60.3mm)

Tube Diameter: 2"/50.8mm

Ports: 2 Top Facing G1/4", 2 Bottom Facing G1/4"

Includes: Reservoir, Aluminum Rings, Mounting Hardware, 2 Fill Plugs, Cathode

Inverter to power light is not included and must be purchased separately. If you already have an inverter, our cathodes work with most major brands.
